

ABC & SafetyWorks, Inc., are proud to present:

OSHA 30-hour

Scope & Emphasis

Discussion of hazards that account for 90% of jobsite fatalities and 90% of OSHA construction citations and fines. A focus on identification and control of the "Big 4" jobsite hazards (fall, electrical, struck-by & caught in/between), with an emphasis on roles and duties of the competent person. Expanded discussion of exposures & regulations having the most impact on attendee operations and on OSHA's top 30 most-frequently cited construction standards, inspection protocol, interpretations and cross-over regulations.

Common topics include...

- | | |
|--|-------------------------------|
| Business Side of Safety | Competent Persons |
| OSHA & Inspection Process | Fall Protection |
| Multi-employer Worksites | Scaffold Safety |
| Excavation & Trenching Safety | Hand & Power Tools |
| Stairway & Ladder Safety | Hazcom |
| Site Electrical Safety | Fire Safety |
| Lockout/tagout & Arc Flash | PPE |
| Aerial & Scissors Lift Safety | Welding/Hot Work |
| Forklifts & Heavy Equipment | Confined Space Entry |
| Hoisting & Rigging Safety | Steel Erection |
| Temporary Traffic Control | Crane Safety |
| Bloodborne Pathogens | Site Health Hazards |
| And more... | |

Recommended for...

The OSHA-30 is most often attended by safety directors, competent persons, site supervisory personnel, project managers, safety committee members & safety administrators who are interested in furthering their jobsite safety efforts and OSHA compliance education.
