Terri Confer, tec@abccentralpa.org, 814.353.1999

“Every time I sit in one of the ABC, Central PA Chapter carpentry classes, I take away some sort of new construction knowledge. I’ve been in the construction industry for over 10 years, and I still learn something new with every class. I would recommend this to everybody regardless of their experience.”

~ Carpentry Level 3 course student
